

Elevate your Oncology Navigation Program with this transformative Breast Health Navigation Masterclass

Elevate your Oncology Navigation Program with this transformative Breast Health Navigation Masterclass! Engage innovative strategies that will revolutionize patient care and navigation program leadership. Designed for navigators and administrators, this immersive program will empower you with advanced techniques for enhancing patient outcomes and experiences. From crafting personalized navigation plans to unlocking new reimbursement opportunities, this masterclass will equip attendees with the skills and knowledge to navigate the complexities of breast health care at a master's level in the field of navigation. Through interactive sessions and hands-on learning, expertise and growth will be developed and enhanced in a masterclass format. Join us to review collaborative care, gain advanced skills, and conquer care barriers. Seize this opportunity to soar to new heights in Breast Health Navigation and embrace this rare opportunity to learn in a masterclass way!

This Masterclass is designed as a stand-alone offering to enable navigation leaders and advanced navigators to enhance their skills beyond traditional base-level methods. Coursework includes practical navigation case studies, intentional networking, study presentations, and interactive sessions unlike any other course offered for Oncology Navigation Programs.

Nicole Centers, MBA, BSN, RN, OCN, CBCN, BHCN, FNCBC; Kristi Denny, RT(R)(M)(BS), ARRT, BHCN, CGRA, FNCBC.
Lisa Spencer, M.Ed., BSRT(T), CMF, BHCN, OPN-CG; Adriane Alexander RN, BSN CBCN; Kristie Bobolis, MD

Day 1 Thursday October 24, 2024

11:45am	12:00pm	Welcome Opening Housekeeping
12:00pm	12:30pm	Rising to the Proposition- Modalities of Oncology Care Lisa Spencer, M.Ed., BSRT(T), CMF, BHCN, OPN-CG
12:30pm	1:00pm	Exactitude: Precision Diagnostics Kristi Denny, RT(R)(M)(BS), ARRT, BHCN, CGRA, FNCBC
1:00pm	1:30pm	Aiming Accurately with Therapies Kristi Denny, RT(R)(M)(BS), ARRT, BHCN, CGRA, FNCBC
1:30pm	2:30pm	Mark Set! Nicole Centers, MBA, BSN, RN, OCN, CBCN, BHCN, FNCBC
2:30pm	3:00pm	Adding Air Not a Steering Wheel Nicole Centers, MBA, BSN, RN, OCN, CBCN, BHCN, FNCBC
3:00pm	3:30pm	Break
		Lacing Up and Walking on Stilts
3:30pm	4:00pm	Adrienne Alexander, RN, BSN, CB-CN
4:00pm	4:30pm	Navigators Soaring into Navigation Lisa Spencer, M.Ed., BSRT(T), CMF, BHCN, OPN-CG;
4:30pm	5:30pm	Cloud Walking Day 1 Nicole Centers
5:30pm	5:45pm	Closing of the day

Objectives:

- Develop strategies to improve patient outcomes and experiences
- Enhance skills and knowledge in Breast Health Navigation
- Empower navigators with advanced strategies to provide comprehensive care
- Highlight the importance of multidisciplinary care teams in oncology
- Learn how to enhance effective communication among breast professionals
- Learn key concepts in care coordination
- Explore how precision medicine and molecular diagnostics are changing breast cancer treatment paradigms, including targeted therapies and personalized medicine approaches.
- Gain knowledge into the latest advancements in cancer immunotherapy including the role of the immune system in breast cancer control.

7:45am	8:00am	Opening
8:00am	8:30am	Honoring the Team Dynamic – MDC & Tumor Boards Lisa Spencer, M.Ed., BSRT(T), CMF, BHCN, OPN-CG
8:30am	9:00am	Ascending the Mountain of Survivorship Lisa Spencer, M.Ed., BSRT(T), CMF, BHCN, OPN-CG
9:00am	9:30am	Rising to the Choice - Palliative Care & Hospice Care Lisa Spencer, M.Ed., BSRT(T), CMF, BHCN, OPN-CG
9:30am	10:00am	AM Break
10:00am	10:30am	Sovereign Statue Nicole Centers, MBA, BSN, RN, OCN, CBCN, BHCN, FNCBC
10:30am	11:00am	Magnifying the Invisible Nicole Centers, MBA, BSN, RN, OCN, CBCN, BHCN, FNCBC
11:00am	11:30am	Intensify Knowledge Nugget Adrienne Alexander RN, BSN CBCN
11:30am	12:00pm	Elevating Your Role as Navigator, Not Hole Filler Adrienne Alexander RN, BSN CBCN
12:00pm	1:30pm	Lunch Break
1:30pm	2:00pm	Thriving Through the Storm – Board Room Talks on Program Goals Nicole Centers, MBA, BSN, RN, OCN, CBCN, BHCN, FNCBC
2:00pm	2:30pm	Mitigating Fears: Testing and Delayed Results Kristi Denny, RT(R)(M)(BS), ARRT, BHCN, CGRA, FNCBC
2:30pm	3:00pm	Ascending and Descending the Choices: Multiple Primaries Lisa Spencer, M.Ed., BSRT(T), CMF, BHCN, OPN-CG
3:00pm	3:30pm	Stimulating the Senses- Time Management and Self Preservation Kristi Denny, RT(R)(M)(BS), ARRT, BHCN, CGRA, FNCBC
3:30pm	4:00pm	PM Break
4:00pm	4:30pm	We All Fall Down: Caregiver Stress Among Navigators Adrienne Alexander RN, BSN CBCN
4:30pm	5:00pm	Monumental Lights Nicole Centers, MBA, BSN, RN, OCN, CBCN, BHCN, FNCBC
5:00pm	6:00pm	Cloud Walking Day 2
6:00pm		Close for the Day with Comments

- Optimizing patient outcomes through collaborative approaches
Manage the integration of palliative care into active care models for symptom management and care planning.
- Supporting transitions of care through end-of-life decision-making and resources for patients at varying points in their life cycle.
- Address healthcare disparities in cancer outcomes and barriers to access.
- Gain cultural competence, and strategies for delivering equitable care to all patients regardless of background or socioeconomic status.
- Explore financial challenges in breast health including insurance coverage requirements and regulations, financial assistance programs.
- Understand how navigating billing and reimbursement, and supporting patients with financial toxicity improves outcomes.
- Advocate for patient self-empowerment through patient education about treatment options, clinical trials, resources, and community support services, advocating for patient needs within the healthcare system.
- Enable success in professional appearance, professional presence, colleague engagement, and professional behaviors to convey confidence, credibility, and authenticity.
- Enable success in professional practice and leading teams of navigators to success to implement quality core programming.
- Assist navigators to empower their patients to lead to job retention and job satisfaction enhancing overall employee engagement.

Day 3 Saturday October 26, 2024

7:45am	8:00am	Opening
8:00am	8:30am	Animating the Dormant: Funding the Needs of Your Program Kristi Denny, RT(R)(M)(BS), ARRT, BHCN, CGRA, FNCBC
8:30am	9:00am	Heighten the Stance: Clinical Trials and Research Opportunities Nicole Centers, MBA, BSN, RN, OCN, CBCN, BHCN, FNCBC
9:00am	9:30am	Leading Towards Tomorrow Nicole Centers, MBA, BSN, RN, OCN, CBCN, BHCN, FNCBC
9:30am	10:00am	AM Break
10:00am	10:30am	Staring Back at the Moon: Resume Writing, Goal Setting, Publishing Nicole Centers, MBA, BSN, RN, OCN, CBCN, BHCN, FNCBC
10:30am	11:00am	Flying Through the Atmosphere: Ensuring Success for Your Patient's Journey Lisa Spencer, M.Ed., BSRT(T), CMF, BHCN, OPN-CG
11:00am	11:30am	Pumping Up The Tires Adrienne Alexander RN, BSN CBCN

11:30am	12:00pm	No Hands! Trusting Your Skills Kristi Denny, RT(R)(M)(BS), ARRT, BHCN, CGRA, FNCBC
12:00pm	1:30pm	Lunch
1:30pm	2:30pm	Cloud Hopping: Care Review Nicole Centers
2:30pm	3:00pm	Cloud Hopping: Professional Development Nicole Centers
3:00pm	3:30pm	Elevating Your Career Adrienne Alexander RN, BSN CBCN
3:30pm	3:45pm	PM Break
3:45pm	4:15pm	Tidal Swells Nicole Centers
4:15pm	5:45pm	Elevating Navigation Nicole Centers
5:45pm	6:00pm	Close for the Day with Comments

- Comprehend the importance of clinical trials in advancing cancer care, especially relating to breast cancer. Understanding trial eligibility, patient enrollment processes, and navigating patients through trial processes.
- Focus on providing comprehensive psychosocial support to breast cancer patients of all ages, addressing their emotional, social, and survivorship needs. Strategize long-term follow-up care and side effects.
- Enhance skills in verbal and non-verbal communication in patient-to-healthcare provider communications. Strategize and utilize techniques to navigate patients with learning impairments and social impediments to care including high-risk lifestyle choices.
- Integrate care provided into written reports of care and transform data into reports to prove value and show metrics in the implementation of breast navigation programming. Proving quality in navigation care.
- Enhance skills in verbal and non-verbal communication in patient-to-healthcare provider communications. Strategize and utilize techniques to navigate patients with learning impairments and social impediments to care including high-risk lifestyle choices.
